

## **Tally Solutions Campus Drive**

The campus drive for Tally Solutions held at St Joseph's University on June 6, 2024, convened at the AV Room of the PG Block, organized by the university's Placement Department and overseen by a panel comprising Mr. Kapil Chopra, Sr. DGM; Ms. Meghna Menon, Manager TA; and Mr. Girish K, HR Executive. With a scheduled start at 10:00 AM, students began arriving at 9:30 AM, followed by the commencement of the event with a welcome note from St Joseph's University's Placement Department, extending greetings to both the students and the Tally Solutions team. Subsequently, the Tally Solutions representatives delivered a comprehensive pre-placement talk, shedding light on the company's ethos, culture, and available positions, aimed at familiarizing the attendees with the prospects within Tally Solutions. The selection process unfolded in three stages, starting with a group discussion to assess students' communication, critical thinking, and teamwork skills. Successful participants then progressed to the technical interview, evaluating their proficiency in finance and accounting principles and problem-solving abilities. The final stage encompassed the HR interview, concentrating on gauging candidates' alignment with the organization, career aspirations, and interpersonal competencies. Following the process, 2 students from the B.Com IFA Batch emerged as successful candidates for the Financial Analyst role out of the 14 participants, with the results announced promptly on the same day. The drive concluded at 2:00 PM, with Mr. Kapil Chopra from Tally Solutions presenting a token of appreciation to the selected students, marking the conclusion of a fruitful collaboration. St Joseph's University's Placement Department expressed gratitude to the Tally Solutions team for facilitating the drive and providing valuable opportunities to the students.
