

NOTICE

Sashakt Scholarship Opportunity for B.Sc Students 2025-26

All eligible students enrolled in B.Sc courses are invited to apply for the Sashakt Scholarship. This initiative is specifically designed to encourage and support promising young **women** across India to pursue a career in science.

About the Scholarship

- The scholarship covers three to four years of studies towards earning a B.Sc., B.Tech, or MBBS degree.
- Selected scholars receive mentorship support throughout their education and have access to role models for a career in science.
- This scholarship aims to encourage academically bright girls, particularly those from rural and economically challenged backgrounds, to access the best science education in India.
- Only a limited number of scholarships are available, and preference is given to students securing admission in the listed colleges on the official website.
- The initiative addresses the attrition of girl students in science during the critical transition from school to college.

Who Can Apply

- Female students who have secured admission in a B.Sc program at one of the recognized colleges listed under the scholarship.
- For students of SJU, college name that needs to be selected is St. Joseph's College.**
- Applicants should have academic excellence and a strong interest in pursuing science studies at the undergraduate level.
 - Priority is given to girls from rural and economically disadvantaged backgrounds.

How to Apply

- Visit the official Sashakt Scholarship website: www.sashakt scholarship.org for detailed instructions and application form.
- Application details, eligible college list, and submission process are available on the scholarship portal.
- Ensure to attach all required documents and submit your application before the deadline as specified on the official website.

Benefits

- Financial coverage for the entire duration of the undergraduate science course.
- Mentorship and guidance from leading women scientists.

All interested & eligible students are encouraged to make the most of this unique opportunity to build a successful career in science.
